They are found more frequenty on the Rio Grande and in New Mexico, but seldom so far north as in the present instance. While in motion they have a ferocious appearance, crouch at the approach of an enemy and then bound off with great swiftness. They make an excellent and excling chase, and can be hunted, as this one was, by lox hounds. When the dogs first opened on his trail their excitement and animation showed that they were in pursuit of no ordinary animal, and after a hot run of about a mile, bayed at the foot of a post oak, in the crotch of which the lion was perched, sale by C. & D. While in this position he was shot twice through the body. He then made a long leap and escaped in and, after a short run, took another tree, where he ders. was shot through the left shoulder, which prevented him from climbing again, and gave the dogs an apportunity of worying him. The whole pack now close in upon himf followed closely by the horsemen, and, after an intensely exciting running fight for about half a mile, he was shot in the right eye, which ended his run. The younger puppies then came in for their share of the sport, by seizing hold with great apparent courage.

puppies wer considerably injured; one had his skull broken in by a stroke of the claws, and another had his fore leg tore open for some distance.

Lieut. Givens has endeavored to produce a breed of hounds combining the strong scent peculiar to the sess. He has succeeded in this by retaining only the swiftest and healthiest in the pack, and crossing the swift ones with those having a fine nose, but keepng the blood pure. His pack fight well from always welves, which also developes that quality. The pack he now hunts with is considered unusually fast for fox hounds, besides having a good nose. The blue hound is the swiftest, the vellow largest and strongest, the black the most courageous.

THE LONDON TIMES -A statement in the London I mes of the comparative number of penny stamps which were issued to that journal for the second quarter for the present year, and to the five other morning papers published in London, shows that the Times has almost absorbed the entire circulation of the morning press of the city. It appears that the number of stamps issued to the Times during the quarter was 3.976,720, which is equal to a daily issue of over 50,000, while that of the Daily News, Morning Advertiser, Morning Chronicle, Morning Herald., and Morning Post, amounted to only 1,665,-094, which is equal to an average daily issue of a little more than 4.000.

Too True to be Questioned!-Magic, and Holloway's Ointment and Pills.—These extraordinary medicines have just effected another astonishing cure on a lad, of the name of Archibald Thorne, aged twelve years, (son of Wm Thorne, A. D. 1854. John I. Thomas vs. Blaney Williams. Origlialveston,) for eight years the poor little fellow was covered with scorbutic sores; it became distressing to his parents to see him suffer. They despaired of his ever being cured, and it did look like it, until they tried Holloway's Ointment and and the wishes of the wisher were obeyed; so the parents of this child used Holloway's Pills, and well rubbed in the Ointment, and in three weeks, by these remedies alone he was completely cured!

FOR THE WEEK ENDING NOVEMBER 23, 1854.

TURRENTINE -- In this market there was considerable animation during the early part of the week, and, as will be seen from our table below, the price advanced 8 cents on yellow dip. On Tuesday, however, it declined, and sales were made at 5 thoroughly seasoned lumber, smoothed off on all sides and cents below our quotation of last week for yellow dip; the market now is rather dull. The sales for the week ended this morning foot up 2,219 bbls., as follows:
